ALEXIS ARDUCA

SOFTWARE ENGINEER & GAME DEVELOPPER

Passionate about game development, I combine one year of full Unity training with ongoing personal projects (gameplay, AI, procedural generation). Currently in my fifth year at Epitech, I'm looking for a final-year internship to contribute to a more ambitious project.

PROFESSIONAL EXPERIENCE

OCTOBER 2025 - FEBRUARY 2026 | PART-TIME

FULL STACK IA DEVELOPPER - SOCLE AI

- Client needs analysis and understanding of company expectations.
- Part-time remote work within a small team.

FEBRUARY 2024 - MAY 2024 | INTERNSHIP

FULL STACK & DEVOPS DEVELOPPER | THE SEED SHIP

- Small team work with autonomy and initiative.
- Remote working.

JULY 2022 - DECEMBER 2022 | INTERNSHIP

FULL STACK DEVELOPPER - ODIGO

- Client presentations and product demonstrations.
- Requirements analysis, design, and documentation.

EDUCATIONS

2024 - 2025

CREATIVE MEDIA AND GAME TECHNOLOGIES - SAXION

- Exchange year at Saxion University of Applied Sciences (Netherlands), focused on project-based learning.
- Developed video games individually and in teams of six on Unity, collaborating with artists and designers.
- Gained solid understanding of fundamental game development principles.
- Strengthened project management and communication skills within international teams.

2021 - 2026

DEGREE: EXPERT IN INFORMATION TECHNOLOGY |
